Mares Name _____

Age _____

Breed _____ Stallion _____

I/we.....(owner) give permission for the above mare to receive veterinary reproductive work at Langaller farm by Hallum Equine Vets.

I/we understand that no medical treatment is without risk to the animal and accept said risk. I/we also understand that complications may result as a consequence of breeding work carried out and that extra costs may be incurred. Should this arise, the attending Vet will inform us as soon as possible and maintain communication throughout treatment.

The attending Veterinary surgeon will contact me, using the number provided, if any "additional" treatment is required. If contact cannot be made, I/We give permission for the Vet to act in the best interest of the animal and to protect the welfare of animals and stud staff i.e., twin reduction, sedation of the mare.

The price for the package is for one cycle only. If the mare is NOT pregnant at 15 days, then a new cycle will begin and a 10% reduction in price will be applied for the following cycle. All packages must be paid in full prior to the start of Veterinary work and Hallum Equine Vets Ltd reserve the right to delay any stud work until payment is received.. I/we have read, understand and fully accept the terms of the prepayment stud package
